The Plan Administrator
Corn Products International, Inc. Retirement Savings Plan for Hourly Employees:

We have audited the accompanying statements of net assets available for benefits of Corn Products International, Inc. Retirement Savings Plan for Hourly Employees (the Plan) as of December 31, 2004 and 2003, and the related statement of changes in net assets available for benefits for the year ended December 31, 2004. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the standards of the Public Company Accounting Oversight Board (United States). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2004 and 2003, and the changes in net assets available for benefits for the year ended December 31, 2004, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

Notes to Financial Statements

1. Description of Plan

General

The following brief description of the Corn Products International, Inc. Retirement Savings Plan for Hourly Employees (the "Plan") is provided for general informational purposes only. Participants should refer to the plan agreement or the summary plan description for more complete information. The Plan is a defined contribution plan for the hourly employees of Corn Products International Inc. (the "Company") in the United States. The Plan allows employees to set aside part of their compensation for retirement. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Fidelity Management Trust Company (the "Trustee") holds the Plan's investments and executes investment transactions through the trust established pursuant to the Plan.

Contributions

Participants may contribute between 1% and 15% of their compensation each pay period on a before-tax basis, subject to the limits imposed by the Internal Revenue Code (\$13,000 for 2004). The Plan also permits participants to make rollover contributions in accordance with the Internal Revenue Code. At the direction of the participant, contributions are invested by the Trustee into the fund(s) that the participant has elected.

The Company makes a matching contribution to the Plan equal to 30% of the deferred contributions made by or on behalf of the participant that together do not exceed 4% of the participant's compensation for each payroll period during a plan year. In addition, the Company makes a service award contribution on behalf of each participant who has completed a specified number of years of service. Service award contributions are earned for each five year period of completed service, and are equal to the number of years of completed service times the Company's average stock trading price during the period. Company matching contributions are 100% vested after five years of service. Service award contributions are always fully vested.

Participant Accounts

Individual account balances are maintained for each participant. Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants have a fully vested interest in all contributions made by them and in the Plan's earnings/losses on those contributions at all times.

1. Description of Plan, continued

Participant Loans

Participants are permitted to obtain loans from their plan accounts while employed by the Company. In general, the amount of the loan may not exceed the lesser of \$50,000 reduced by the highest outstanding loan balance in a participant's vested account during the prior 12-month period, or 50% of their vested account balance. The minimum loan amount is \$1,000. Loan transactions are treated as a transfer between the investment funds and the loan fund. The loans bear a rate of interest equal to the prime rate as published in the Wall Street Journal at the time of the request, plus one percent. Loans are repaid through monthly payroll deductions and repayments are reinvested into the participant's account according to the current investment election. Current outstanding loans will mature from 2005 through 2010.

Payment of Benefits

Upon retirement, death or termination, the participant's benefit will be paid in a lump sum. Under certain circumstances, participants may withdraw their before-tax contributions during their employment with the Company. Withdrawals may be made in the event of financial hardship, as defined in the Plan, or after attainment of age 59 ½.

Administrative Expenses

Generally, fees of the Trustee and any other administrative expenses are paid by the Plan.

2. Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the use of estimates and assumptions by the plan administrator that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of changes in net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan allows participants to direct the investment of their account balance in a number of funds which invest in stocks, bonds, mutual funds, and other investment securities. The values of certain investment securities are exposed to risks from a variety of factors, such as changes in interest rates, fluctuations in market conditions and changes in the credit standing of issuers of investment securities. The level of risk associated with certain investment securities and uncertainty related to changes in value of these securities could materially affect participant account balances and amounts reported in the financial statements and accompanying notes.

Investment Valuation

Investments held by the Plan are stated at quoted market value. Investments held in mutual funds, U.S. Government obligations, bonds and common stocks are valued at the quoted market price on December 31.

Participant loans receivable are valued at cost, which approximates fair value.

2. Summary of Significant Accounting Policies, continued

Investment Transactions and Investment Income

Purchases and sales of securities are recorded on a trade-date basis. Dividend income is recorded on the ex-dividend date and interest income is recorded as earned on an accrual basis.

The Plan's investment activities as presented in the statement of changes in net assets available for benefits include the net appreciation or depreciation in fair value of investments, which consists of the realized gains or losses on investment sales and the unrealized appreciation or depreciation on investments held at year end.

Payment of Benefits

Benefits are recorded when paid.

Reclassifications

Certain prior year balances have been reclassified to conform to the current year presentation.
